DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald P. Kananen on February 7, 2007.

The application has been amended as follows:

Claim 1 has been cancel.

Allowable Subject Matter

Claims 2 – 8 are allowed.

The following is an examiner's statement of reasons for allowance: Claim 2 recites a laser oscillator structure including the specific structure limitation of *single-*

longitudinal-mode oscillation is achieved when the longitudinal mode interval is more than about one-fifth and less than several times the width of the emission spectrum obtained by the solid-state laser medium, which is neither anticipated or disclosed nor suggested in any piece of available prior art, which is neither anticipated nor obvious over the prior art of record.

Claim 5 recites a laser oscillator structure including the specific structure limitation of *the free spectral range $\Delta\lambda_{FSR}$ of the laser resonator is larger than the half-width at half-maximum $\Delta\lambda$ of the emission spectrum of the solid state laser medium,* which is neither anticipated or disclosed nor suggested in any piece of available prior art, which is neither anticipated nor obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
